

BPI Insulation & Airsealing Technician

Dates: Wednesdays & Thursdays only, October 5-20

Times: 3-7 PM

Course Description:

This BPI Weatherization training provides the skills and techniques necessary to properly airseal and insulate a home. In this BPI weatherization course, you will learn the right way to caulk, flash, or insulate a home.

BPI Building Analyst Professional

Dates: Saturdays only, October 22-November 26

Times: 9 AM - 5 PM

Course Description:

This BPI Energy Auditor training course will provide individuals with the knowledge necessary to provide homeowners an overview of energy consumption and options to save money by conserving energy.

Solar PV Contractor Series

Dates: Monday - Friday, November 7-18

Times: 9 AM - 5 PM

Course Description:

The Solar PV Associate portion of the class covers the fundamentals of solar energy and photovoltaics, electricity, system sizing principles and PV array electrical & mechanical design. No prior experience is required. As a natural progression to follow the Solar PV Associate class, Everblue's Solar PV Design and Installation course will take it to the next level. This series will give you all of the hands-on know-how to complete solar installations from start to finish.
